

COMPANY PROFILE

**Design, Engineering, Manufacturer,
Fabricator, Engineering Solutions Provider
& Engineering Services Provider**

MIHIKA ENTERPRISE is a Vadodara, Gujarat based MSME enterprise delivering end-to-end design, engineering, manufacturing, fabrication and engineering services for industrial and infrastructure sectors worldwide. We are committed to delivering high-quality products and engineered solutions that meet international standards, backed by innovation, reliability, integrity, and a customer-first approach.

OUR MISSION

To deliver engineered products and services that consistently exceed customer expectations through innovation, reliability, quality, and continuous improvement.

OUR VISION

To be a trusted global partner for industrial and infrastructure solutions by upholding the highest standards of quality, commitment and customer satisfaction.

OUR VALUES

- Quality
- Integrity
- Commitment
- Innovation
- Teamwork

OUR STRENGTH

- Experienced Team
- Quality Manufacturing
- Timely Delivery
- Customer Focus
- Competitive Pricing

ABOUT US

MIHIKA ENTERPRISE has the expertise and capability to execute a wide range of industrial requirements including process equipment, structural fabrication, machined components, storage tanks & silos, industrial raw materials and engineering solutions.

We are equipped with modern infrastructure, skilled workforce and strong vendor base to support customized requirements with consistent quality and timely execution.

KEY DETAILS

Company Name	: MIHIKA ENTERPRISE
Nature of Business	: Design, Engineering, Manufacturer, Fabricator, Engineering Solutions Provider & Engineering Services Provider
Business Segment	: Process Equipment, Structural Fabrication, Machined Components, Storage Tanks & Silos, Industrial Raw Materials and Engineering Solutions
Location	: Vadodara, Gujarat, India
MSME Status	: MSME Enterprise
Year of Establishment	: 2019
Legal Constitution	: Proprietorship Firm

OUR PRODUCTS & ENGINEERING CAPABILITIES

We offer a wide range of engineered products and solutions catering to diverse industrial applications with high precision, quality and reliability.

STRUCTURAL FABRICATION

Industrial structures, platforms, walkways, ladders, supports, chutes, hoppers and custom welded assemblies.

MACHINED COMPONENTS

Precision machined parts as per drawings – CNC/VMC turning, milling, boring, grinding, drilling and gear machining.

FASTENING & FOUNDATION ITEMS

Foundation bolts, anchor bolts, studs, nuts, washers and customised fastening assemblies.

PROCESS EQUIPMENT & FABRICATION

Tanks, vessels, skid assemblies, piping spools, ducting and pressure equipment fabrication.

INDUSTRIAL RAW MATERIALS

Supply of MS, SS and alloy steel – plates, pipes, tubes, bars, angles, channels, beams and flats.

ASSEMBLY & ERECTION SUPPORT

On-site fabrication assistance, installation support and erection of structures and equipment.

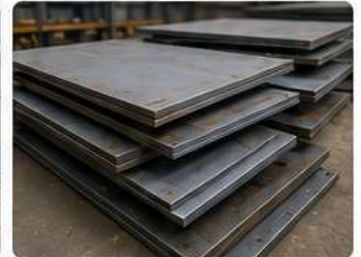

ENGINEERING SOLUTIONS

Custom engineering, detailing, design support, prototyping and project-based solutions.

ENGINEERING SERVICES

Welding, surface preparation, surface treatment coordination, inspection support and technical documentation.

OUR COMMITMENT TO EXCELLENCE

QUALITY

Committed to delivering products and services that meet the highest industry standards.

RELIABILITY

Dependable solutions with consistent quality and on-time delivery.

CUSTOMER FOCUS

Understanding customer needs and delivering value-driven solutions.

CONTINUOUS IMPROVEMENT

Investing in technology, processes and people for better outcomes.

GLOBAL APPROACH

Catering to industries across global markets with world-class engineering solutions.

BUSINESS ACTIVITIES & INDUSTRIAL SOLUTIONS

MIHIKA ENTERPRISE is actively involved in design, engineering, manufacturing, fabrication and execution support for industrial projects across process, energy, infrastructure and manufacturing sectors. We provide end-to-end support from concept, detailing and material planning to fabrication, erection and supply.

01

Process Equipment Manufacturing

Manufacturing and supply support for process equipment used in chemical, pharma, dairy, oil & gas, energy and industrial sectors.

02

Storage Tanks & Silos

MS / SS / Aluminium / Alloy Steel Storage Tanks & Silos as per project requirement, drawing, size, material grade and application.

03

Reactors, Heat Exchangers & Pressure Equipment

Fabrication and supply support for reactors, heat exchangers, pressure equipment, limpet coil vessels, vacuum tanks, skid-mounted equipment and customized vessels.

04

Structural Fabrication & Erection

Structural steel fabrication and erection support for platforms, ladders, frames, industrial structures, sheds, equipment supports and project structures.

05

Equipment Erection & Industrial Project Execution

Site execution support for equipment erection, structural erection, fabrication installation, project coordination and industrial mechanical works.

06

Machined Engineering Components

Machined components and drawing-based parts through turning, milling, drilling, tapping, threading and CNC / VMC machining support.

07

Foundation Bolts / Anchor Bolts

Manufacturing and supply of foundation bolts, anchor bolts, J-type bolts, L-type bolts, threaded rods, nuts, washers and customized fastening items.

08

Industrial Raw Material Supply

Supply of MS, CS, SS, Aluminium, Brass, Copper, Alloy Steel, Tool Steel, GI / Galvanized materials, plates, sheets, pipes, tubes, flats, beams, channels and angles.

OUR VALUE IN EXECUTION

ENGINEERING PRECISION

Accurate design, detailed engineering and optimized solutions for every project.

RELIABLE FABRICATION

Quality fabrication processes, skilled workforce and strict quality standards.

TIMELY EXECUTION

Efficient planning, coordination and on-time delivery to meet project schedules.

QUALITY FOCUS

Strong focus on quality, safety and compliance at every stage.

GLOBAL BUSINESS APPROACH

Customer-centric approach with capability to support global industrial projects.

OUR MANUFACTURING & FABRICATION FACILITIES

MIHIKA ENTERPRISE is equipped with modern infrastructure, advanced machines and skilled professionals to deliver quality products with precision, on-time and with complete customer satisfaction.

INFRASTRUCTURE HIGHLIGHTS

- ✓ Spacious manufacturing area
- ✓ Advanced machines and tools
- ✓ In-house fabrication & machining capability
- ✓ Experienced & skilled workforce
- ✓ Quality control & inspection facilities
- ✓ Safe, clean and well-maintained premises
- ✓ Capacity to handle bulk and customized orders

CNC MACHINING CENTER

CNC PLASMA CUTTING

PRESS BRAKE

FABRICATION SHOP

SHOT BLASTING

PAINTING FACILITY

QUALITY ASSURANCE

Quality is at the core of everything we do. We follow stringent quality control procedures at every stage – from incoming material inspection to final dispatch – ensuring products that meet international standards and customer expectations.

- ✓ Material inspection
- ✓ In-process quality checks
- ✓ Dimensional & visual inspection
- ✓ Final inspection before dispatch
- ✓ Documentation & traceability

CUSTOMER / SECTOR EXPOSURE

- GAIL / Ministry of Petroleum & Natural Gas sector exposure
- Indian Air Force / Ministry of Defence sector exposure
- Indian Railways / IREPS procurement
- Amul / Dairy industry customers
- Roquette / Process industry customers
- INOX Air Products / Industrial sector
- TEMA / Engineering and equipment-related customers
- BBML Bangladesh – third-party contract work executed
- Pharma and chemical industry customers
- EPC and fabrication customers

Specific purchase orders, performance records and supporting credentials can be shared separately as required.

QUALITY DOCUMENTATION SUPPORT

- ✓ Tax Invoice
- ✓ E-Way Bill
- ✓ Packing List
- ✓ Material Test Certificate / Mill Test Certificate
- ✓ Inspection Report
- ✓ Compliance Certificate
- ✓ Warranty / Guarantee Certificate, if applicable
- ✓ Test Reports, if applicable
- ✓ Undertaking / Declaration, if required
- ✓ Drawing / Technical Data Sheet, wherever applicable
- ✓ Third-Party Inspection Coordination Documents, wherever applicable

WHY CHOOSE MIHIKA ENTERPRISE

Technical understanding and practical execution

Design, engineering and fabrication support

Strong quality and documentation focus

Timely delivery and responsive coordination

Customized industrial solutions

Global business approach

Let's build engineering excellence together.

MIHIKA ENTERPRISE is committed to quality, reliability, innovation and long-term business relationships across industrial and global markets.
